

Leanne Goldsmith

Junior Frontend Developer

Tel: +44 (0)74 963 55 196 | London, UK | Email: leannemgoldsmith@gmail.com
Portfolio: <https://leannegoldsmith.netlify.app> | LinkedIn: www.linkedin.com/in/leanne-m-goldsmith

Experienced advertising professional with a passion for tech and design, transitioning to Frontend Development. I've undergone intensive self-study and coding bootcamps, refining my skills in HTML, CSS, JavaScript, and React. Excited to contribute to a dynamic team, fostering continuous growth as a Frontend Developer.

SKILLS

HTML | CSS | JavaScript ES6 | TypeScript | NodeJs | ReactJs | NextJs | Bootstrap | Tailwind | API | jQuery | GitHub | Git Versioning | Figma | Photoshop | Greensock | VS Code

PROJECTS

GameSync- Group Project | <https://github.com/thevisualriot/Gaming-scheduler> | <https://bit.ly/gamesync>

- Summary: Streamlining gaming session scheduling with friends via an intuitive platform, leveraging RAWG API data.
- Role: Developed dynamic recommendations page for game choices and added saved sessions/players feature.
- Tools: HTML, Tailwind, React, RAWG API

Oyster & Beyond Blog | github.com/LeanneCodes/oyster-and-beyond-blog | oyster-and-beyond-blog.vercel.app/

- Summary: A travel blog that showcases a variety of destinations and an option for users to leave comments.
- Role: Sole-developer
- Tools: HTML, NextJs, Tailwind, JavaScript, Hygraph CMS

VaultKey Password Generator | github.com/LeanneCodes/vault-key-generator | leannecodes.github.io/vault-key-generator

- Summary: A password generator that creates a random password based on the user's choices.
- Role: Sole-developer
- Tools: HTML5, CSS3, JavaScript

EXPERIENCE

Addressable Creative Manager | Wavemaker UK - London, UK

October 2021 - Present

- Translated design concepts from Photoshop and Figma to HTML and CSS for ad banners, reducing client costs by eliminating the need for external creative agencies.
- Edited 950+ Eurostar multi-market promo ads in 3 days using CSS and Google Studio for their promo campaign.
- Produced 700+ ad banners for Audible in under 2 days by creating an HTML and JavaScript template for dynamic changes.
- Implemented dynamic animations using Greensock and JavaScript, allowing diverse content in 3-5 frames for client customisation.
- Conducted quality assurance checks to ensure flawless ad delivery, preventing a critical error in a client's ad terms and conditions.
- Identified and rectified an error, averting a 70% price reduction on a product.
